Vision of I.C.C.S

To provide students an opportunity for a Christian education that will inspire them spiritually, academically, physically and socially.

Christ-Centered and Bible-Based Education

by Amy Morrow, School Administrator

It is my pleasure to share the great things God has been doing here at Indian Creek Christian School. You may have seen our advertisements on social media and throughout the community, as we have been prayerfully seeking God to lead families who desire their children to have the opportunity of attending a Christian school.

We are looking forward to making a difference in the lives of students by teaching the high-quality Christ-centered curriculum Abeka. All students will be able to participate in various mission and service projects and a variety of extra-curricular activities as they grow in their faith.

Christ-Centered...continued

Some of the extra-curricular activities include art, music, physical education, archery, fishing, home economics, and gardening. Students will begin each day with the word of God and continue to learn His truths and Christian characteristics through the school day. Once a week, all students will attend Chapel Service where they will worship and be lead in God's Word. It is going to be a wonderful year learning and growing here at Indian Creek Christian School. I am looking forward to this first year and I pray that our school is a blessing the families, faculty, and local communities!

In Christ,
Amy Morrow
School Administrator

Ways You Can Be Involved

- Be a volunteer! Fill out an application online today!
- Monetary donations can help families pay tuition, fund projects for the continued physical development of the school, or to help purchase the high-quality curriculum used in all classrooms.

Mission

A school that builds the foundation of God's truth and Christ-like character in the lives of students while providing academic excellence.

Developments of I.C.C.S.

- New paint and carpet throughout the school
- Installation of Smart Board Technology in classrooms
- Development of school library
- Renovated cafeteria and bathrooms
- Planning for the new playground and recreational areas.

**Currently accepting
applications for age
two through
eighth grade!**
